## A NEW SERVICE TO THE TRADE

Texas Rose Bushes are good, but like any other good plant must be properly dug, graded and packed. Our reputation as growers and packers is too well known to require further comment. The facilities of our packing plant, our knowledge and skill, enable us to offer to the trade a preferred and guaranteed service not heretofore available from this source of good cheap rose bushes.

One or more members of our firm are continuously on the job. We do not grow any roses in Texas ourselves, but have under contract some of the best growers and are in touch with the entire rose situation in the Texas District. We are always in a position to insist on and get the best stock and make delivery in the best possible condition.

In addition, we will carry out any commission assigned to us in the capacity of broker, for the purpose of buying, supervising digging and packing of any quantity of roses from the following or any variety list. Our experience (neutral position) on both ends of the line assures you of a very valuable service as well as a real economy. Write for particulars.
